

LAMB | BEEF | BY-PRODUCTS

From the **far south of Chile**, the Lamb from **Magellan Strait Region** is one of the few remaining examples in the world of a totally **natural raised lamb**.

Our **geographical isolation** and severe climate assures the best **tender & lean lamb** meat.

When you match this conditions with **28 years** of experience and **state of the art processing technologies** the result is one..... the **best product**.

PREMIUM CHILEAN LAMB

Our partner company **Ganadera Marín** is Chile's biggest and most advanced lamb producer, exclusive supplier of Agromarin, being this a **big advantage....** this also allow us to keep almost complete control over the **productive chain.....from farm to pack.....**

INTEGRATION

Ganadera Marín accounts more than 150.000 hect of unaffected lands in south Chilean Patagonia.

QUALITY FROM THE FARM

Since 1981 our farms are involved in a consistent genetic development programme assisted by top Australian genetist every year.

Renowned specialists evaluate our animals as above the Australian average in terms of wool and carcasses.

SANITARY STRENGHT

Our geographical isolation and severe climate results in a privileged sanitary status almost totally free of diseases and the use of chemicals.

GANADERA
MARÍN

CABAÑA TRIS CHORRILLOS

The **technology and smart design** applied into our plant has ranked it into the **top 5 advanced lamb plants in the world**, and as a recognition it has earned the **New Zealand Excellence Engineering Awards** the past November 26th in Auckland NZ.

Agromarin lamb quality starts by taking care of every aspect of the operation, including animal handling and welfare.

Our plant operate under a **quality assurance** system based on the internationally-recognised **HACCP** (Hazard Analysis at Critical Control Point) principles.

The Plant's complete operation, as well as our HACCP team is permanently supervised by **S.A.G. in-situ inspection** team.

We are **EU approved** as well as for other global markets.

Our commitment with the environment is shown in our liquid effluent treatment systems, and also in our modern **Rendering Plant** to process all by-products.

The heat generation systems also operate on **Bio-fuel** generated by our own by-product processing plant.

Our product lines cover most of the **standard packaging** available allowing our customers to suit their needs and ensuring the **best shelf life available** in the market, extending beyond 90 days with C.A.P Tech gas flush technology.
